

ASSET MANAGEMENT POLICY

**TNTRA
INDIA**

Released by People Management

Message from Leadership

At Tntra India, we place a high value on responsibility and integrity in the stewardship of our company's assets. As we continue to grow, the careful management of both physical and digital assets is critical to our long-term success. This policy ensures that all employees understand their roles and responsibilities in asset care and usage, while also providing a clear framework for accountability. We count on each one of you to uphold these standards and contribute to maintaining a secure and efficient work environment.

Policy Statement: Tntra is committed to fostering a workplace environment where every employee is treated with dignity and respect, free from harassment of any kind. This POSH policy ensures compliance with The Sexual Harassment of Women at Workplace (Prevention, Prohibition, and Redressal) Act, 2013 (SHWW Act). Any instance of sexual harassment will be promptly addressed, and corrective action will be taken. False or frivolous complaints will also be considered a policy violation.

Applicability & Scope

1. Purpose and Scope

This Asset Management Policy is designed to establish clear guidelines for the management, usage, tracking, and maintenance of all physical and digital assets owned by Tntra India. The policy applies to all employees and covers all company assets, including but not limited to IT equipment, office supplies, company vehicles, and intellectual property. The purpose is to ensure the proper stewardship of these assets and their protection from misuse, loss, or damage.

2. Asset Categories

Tntra India manages a wide range of assets, including:

- IT Equipment: Laptops, desktops, mobile phones, and other related devices.
- Office Supplies: Furniture, equipment, and any other items necessary for day-to-day business operations.
- Company Vehicles: Any vehicles owned or leased by Tntra India.
- Intellectual Property: Software, proprietary codes, and other intangible assets that belong to the company.

3. Asset Ownership and Responsibility

The responsibility for managing and overseeing the company's assets lies with the IT & Infrastructure Team. This team will ensure that all assets are tracked, maintained, and audited regularly. Employees are entrusted with the responsible use and care of any asset assigned to them for business purposes.

4. Asset Tracking and Auditing

All assets assigned to employees will be tracked using the designated asset management tool(s). The IT & Infrastructure Team will conduct regular audits of the assets to ensure that they are accounted for and in good condition. Audits will be performed periodically, and employees may be required to cooperate with these audits by providing access to assets and asset-related information as needed.

5. Asset Usage and Care

Assets provided by Tntra India are strictly for official use only. Employees are prohibited from using company assets for personal purposes. Each employee is expected to maintain the assets in good working condition and take appropriate care to avoid any damage, loss, or misuse.

6. Asset Return and Disposal

Upon termination of employment or when an asset is no longer needed, employees must return the asset in the same condition as when it was issued, barring normal wear and tear. The IT & Infrastructure Team will inspect the returned asset and report any damage. Any costs associated with repairing or replacing damaged assets will be the responsibility of the employee.

7. Consequences for Misuse or Damage

In the event that an asset is lost, damaged, or otherwise misused due to negligence, the employee will bear 100% of the repair or replacement costs. This includes damage resulting from improper handling, failure to follow maintenance procedures, or unauthorized use. Employees will be held financially responsible for any loss or damage beyond normal wear and tear.

8. Frequently Asked Questions (FAQs)

Q1: Can I use company assets for personal purposes?

No, all company assets are strictly for official use only. Unauthorized personal use of company assets is prohibited.

Q2: What happens if an asset is damaged or lost?

If an asset is damaged or lost, the employee responsible will bear the full cost of repair or replacement. Damage must be reported immediately to the IT & Infrastructure Team.

Q3: What happens if I leave the company or no longer need the asset?

Upon leaving the company or when an asset is no longer needed, it must be returned to the IT & Infrastructure Team in the same condition it was issued (except for normal wear and tear).

Q4: How often will audits be conducted?

Audits will be conducted periodically by the IT & Infrastructure Team to ensure assets are properly tracked and maintained.

Q5: What is considered “normal wear and tear”?

Normal wear and tear refers to minor damages or deterioration that occur naturally with regular use of an asset. Examples include slight scratches on a laptop or fading of office furniture. Significant damage or loss due to negligence or misuse will incur full replacement costs.
