1.0	01-05-2023	New policy formed	Human Resource	Management

Purpose:

The purpose of this policy is to ensure that any request for IT assets, is properly reviewed and authorized before procurement and distribution.

Scope:

The policy is to ensure that assets are acquired and managed efficiently, and that they are used in accordance with company policies and regulations.

Policy:

1. **Asset Request:** The employee who needs an IT asset or replacement of asset, such as a laptop or mobile phone, must raise a formal request through HRStop Helpdesk to the IT, Admin (Shainy) and Reporting Authority.
2. **Asset Assessment:** The IT department should collaborate with the reporting authority to assess the request and determine if the asset is necessary for the employee's job role and if it aligns with the organization's asset allocation policies.
3. **Asset Budgeting:** The IT department must work with Admin to develop an annual budget for IT assets.
4. **Approval Process:** The Admin department must approve the request and budget.
5. **Asset Approval Documentation:** The Admin must document all asset acquisition, assignment, maintenance, and disposal requests and store them on file. This documentation should include approval signatures, asset details, and any relevant notes or comments.
6. **Asset Allocation:** The IT department assigns the requested asset to the employee and records it in the company's asset management system.
7. **Asset Tracking:** The IT department maintains a record of all assets assigned to employees, including the asset details, such as the serial number, date of allocation, and the name of the employee to whom it was assigned.
8. **Asset Return:** If an employee leaves the organization or no longer requires the assigned asset, they must return it to the IT department. The IT department will remove the asset from the employee's record and update the asset management system accordingly.
